in BRANKOVIĆ Miloš, Frontend web developer, React developer

- **Date of birth:** 24.09.1992.
- **E-mail**: brankovicmilos@hotmail.com
- **Phone**: +381 64/366-0-359
- **Web portfolio**: https://miloslbr.github.io/
- **GitHub**: https://github.com/MilosLbr

After writing the first functional web app, I got hooked to programming and never stopped learning since. The satisfaction I get when the app is doing what I intended it to do keeps me enthusiastic to work, learn and experiment more.

Languages	Frameworks	Other
JavaScript	React.js	Webpack
HTML	Redux	Git
SCSS	jQuery	Ajax
CSS	Bootstrap	npm, yarn

Personal projects/Experience

Blackjack game ○ °Live	React weather app ○ °Live
Based on classical casino game, the whole game logic was developed from scratch using **React.js** and **Redux**.	This web app makes calls to OpenWeatherApi and renders results using **React** components. Gives current location weather, ability to search for any city and detailed five day forecast with a chart.
stack: React, Redux, ES6, SCSS, HTML, Webpack.	**stack**: React, ES6, SCSS, HTML, Ajax, Webpack.
Important Serbian localities ○ °Live	Wikipedia viewer ○ °Live
This app uses some backend with Python. It gives user the ability to search for Serbian cultural monuments and display their location, additional info and route to the monument on the map.	This web app is connected to Wikipedia's API. It allows users to search for an article and returns up to 10 results with title, picture and intro text.
stack: React, Ajax, Bootstrap, Python-flask, SQLite	**stack**: JavaScript, jQuery, Ajax, Bootstrap.

More on **GitHub**
